### REVIEW MARKETS; ESTATE BUSINESS. OF THE AND REAL

Stocks, Money, Exchange, Bonds, Grain, Cotton, Provisions, Etc.

New York, Dec. 27.—The market for securities showed the effect of the great relief felt by the dissipation of several factors of apprehension, and prices mounted upward with increasing buoyancy as the day progressed. The market closed with a burst of animation and strength at the top level of the day. Net gains in a number of important railroads reached three points, with a long list of advances a point or better. Among the Industrials and specialties gains were even more striking, quite a number having advanced from 4 to 10 points as a result of the day's trading.

g.
The demand from an outstanding fort interest to cover accentuated the rength of the latter group, those hich have recently suffered most lowing the greatest benefit from the lower than the latter than th

showing the greatest benefit from the day's business.

Brooklyn Transit was almost a solitary exception and was subject to vigorous attacks all day in an effort to unsettle the market and check the advance. But this stock, although it ranged over more than four points, closed with a net loss of only a point.

The leading influence in the improvement of sentiment was the quiet and orderly manner in which the periodical settlement on the London Stock Exchange proceeded. Since the last settlement on that exchange Great Britain has suffered three notable reverses to its arms in South Africa, its three columns of invasion have been parafered, and as a result alarm spread through the financial centers of the whole world.

Grave fears were felt that the result-

spot coffee—Rio steady; mild quiet. Sugar—Raw firm; reflued steady.

Grave fears were felt that the resulting shrinkage in values would prevent many operators on the London exchange from meeting their engagements at the current settlement. The news this morning that no acute difficulties had developed, that money conditions were easy and prices inclined to advance rather than to decline, brought immense relief, which was promptly reflected at the opening here in an advance all along the line. The only notable check came with the news of the failure of a Boston stock exchange house; but this influence was only temporary and slight. The conditions in the money market were notably easy, and one of the largest individual money lenders in the street made large loans to carry over until next Tuesday at the rate of six per cent. The current rate of the year is universally expected to terminate the period of severe stringency, to be followed by relaxation, owing to disbursements of dividends and interest, which will be on an unprecedented scale. There was some discussion of the probable amount of gold exports en Saturday. These are not now expected to be large, owing to the easier conditions in the London money market. The buying to cover short contracts, although it was a considerable element in the advance, was itself induced by the very substantial schangator of the buying for long accomplete. short contracts, although it was a considerable element in the advance, was ilderable element in the count and the manifestly small supply of floating stocks. The trading did not take on any great animation until near the close, and the individual transactions were not on a large scale. In fact the number of odd lois traded in was a fenture of the day, and reflected the investment demand by buyers who take stocks out of the market to lock up and keep.

Investment huying was in evidence also in the bond market, wherever the fall in prices had offered opportunity to secure fair return on money invested. The bond market was active and strong throughout. Total sales, par value \$2 320,000 e, \$2,320,000. S. new 4's declined 4c, in the bid

price.
The total sales of stocks were 664,300
